OUR HISTORY & PHILOSOPHY
Motorsport is a fairly new addition to Automobili Lamborghini. Squadra Corse was initially formed in 2013.

As a customer racing programme, the sole purpose of Squadra Corse, is to provide products and support to our customers to ensure that they have everything needed to win on track.

Starting with the Gallardo Super Trofeo in 2009, Squadra Corse develops cars for the track, based on already successful road car platforms. The latest iterations being the Huracán Super Trofeo EVO2 and Huracán GT3 EVO.

Data gathered on track feeds back to Lamborghini’s research & development team, supporting further development of our road cars. Despite its young age, with a strong motorsport product range and a dedicated and passionate team, Lamborghini Squadra Corse has achieved some of the greatest accolades in international GT racing.

"Sophisticated aerodynamics and ultralight materials."

The Super Trofeo is the best testing ground for technical and aerodynamic solutions for both road cars and GTs, and with the Huracán Super Trofeo EVO2 we have definitely taken another step forward.

In April 2021 we celebrated the milestone of the 400th Huracán racing car, and our goal with the Super Trofeo EVO2 is to reach 500 in just a few years.
