Lamborghini Super Trofeo Event Sustainability Statement of Purpose and Values

(ISO 20121 § 4.5)

Squadra Corse intends to design and realize the Lamborghini Super Trofeo World Finals 2023 at the Vallelunga circuit pursuing these guiding principles for sustainable development, in line with the Strategy 2030+ of Automobili Lamborghini:

VALUE	COMMITMENT
Stewardship	Environmental compatibility and sustainability of our products, locations and services; rational use of resources and energy; CO2 emissions reduction
Innovation	Alternative drive technologies, new processes & digitization, materials & circular economy.
Compliance	Product conformity and product safety, brand extension responsible and local products
Integrity	Respect of Code of conduct; promote long-term customer experience for an ethical shift; avoid any conflict of interest
Transparency	Open dialogue with stakeholders; donations and sponsorship in accordance with a transparent approval process
Human care	Work-life integration and well-being, prevention of accidents and protection of health of workers
Inclusivity	Protect human & children rights, equal opportunity and equal treatment

Event Sustainability Policy

(ISO 20121 § 5.2)

Squadra Corse has adopted since 2016 an ISO 9001 certified Quality Management System and, taking into consideration the Company Quality Policy (ISO 9001) and Environmental & Energy Policies (ISO 14001 & ISO 50001) is implementing an Event Sustainability Management System according to the ISO 20121 standard, promoting these commitments as concrete application of its "Statement of purpose and values" and as the basis for managing LST World Finals 2023 event activities and setting improvement targets:

- satisfy legal and other binding applicable requirements
- continuously improve the event sustainability management system performance
- promoting the rational use of resources and energy, reducing CO2 emissions where applicable
- promoting waste reduction, circular economy and digitization of processes
- involve suppliers, partners & sponsors in sustainability issues
- prevent accidents and injuries and protect the health of workers involved in the event
- promote inclusive participation, minimizing physical, linguistic and cultural barriers
- activate a dialogue with relevant stakeholders on sustainability topics
- enable benefits for local economies and enhance the culture of the host territory
- ensure the technical and sporting regularity of the event and the safety of the participants

This Policy is issued by Chief Technical Officer, disclosed to staff through the company's communication channels and made available to interested parties by publishing it on the website, social channels and media canter dedicated to the Super Trofeo Championship.
