

## Our Whistleblower System

Complying with statutory regulations, internal rules, and the principles laid down in our Ethic Code and the Code of Conduct for Business Partners has top priority at Lamborghini.

The success of our company is based on Integrity and Compliance. To meet these standards, it is important to learn of potential employee or supplier misconduct and to put a stop to it. Therefore, Audi Investigation Office operates an independent, impartial and confidential Whistleblower System on our behalf.

A key pillar of our Whistleblower System is the principle of procedural fairness. It also guarantees the greatest possible protection for whistleblowers, persons implicated and employees contributing to the investigation of reported misconduct.

This also includes offering opportunities for anonymous reporting and communication: anonymity, for those who do not misuse our Whistleblower System, is always guaranteed. We take all necessary measures to prevent retaliation of whistleblowers and all persons who contribute to investigations at Lamborghini. Persons implicated are presumed innocent until the violation is proven. Investigations will be conducted with the utmost confidentiality. The information will be processed in a fair, fast and protected process.

## How do we process your report?

The qualified and experienced colleagues at the Audi Investigation Office examine every report for potential misconduct by a Volkswagen Group employee thoroughly and follow it up systematically.

First, a confirmation of receipt will be sent. The Audi Investigation Office then assesses the report. This includes gathering facts particularly from the whistleblower. Only if this initial evaluation shows grounds for suspicion of a violation, an investigation by a dedicated Investigating Unit will be started. Afterwards, the results of the investigation will be assessed by the Audi Investigation Office and appropriate measures will be recommended. Information about the status\* and the outcome of the procedure will be given to you without undue delay.

Potential violations of the Code of Conduct for Business Partners by suppliers, including serious risks and violations of human rights and environment by direct and indirect suppliers, can also be reported to the Audi Investigation Office - as well as reports requiring otherwise immediate actions. The Audi Investigation Office will inform the responsible departments, who will process the issue accordingly. This particularly includes taking the necessary measures to minimize or end violations and/or risks.

\* The processing time varies depending on the subject of the procedure

## Reporting Channels of our Whistleblower System

The Whistleblower System offers various channels to report potential employee misconduct that allow a swift review and reaction by our company if necessary.

## How do I make a report?

Everyone must be willing and able to report specific information on regulatory violations made by Lamborghini employees using the Whistleblower System anytime, in any language. Examples include violations of the Ethic Code or antitrust law, corruption, infringement of human rights, theft, discrimination, or workplace harassment. In addition to employees, also business partners, customers or other third parties can submit reports if they have specific information about regulatory violations.

- The System **guarantees the greatest possible protection** for whistleblowers and all the people involved in the investigations.
- An investigation is not initiated until the hint has been reviewed thoroughly and if there are **concrete indications** of a regulatory violation.
- The information is handled as part of a fair and **confidential process**.
- Discrimination, intimidation or hostility resulting from a report to the Group Whistleblower System will be investigated and penalized under the same process.

To ensure the report being submitted to the appointed bodies can be handled and investigated appropriately, it is important for the report to be as specific as possible.

It will be helpful if the questions in the figure can be answered.

- There will be **strict confidentiality and secrecy** throughout the investigative process.
- The whistleblower is asked to describe the matter in terms that can also be understood by non-specialists. It will be helpful in that regard if the whistleblower is available to answer further questions.
